* F = Fungicide, H = Herbicide, I = Insecticide, M = Metabolite and/or Degradation Product

** LQ = Limit of Quantification of the analysis method / LD = Limit of Detection of the analysis method
 Expressed in ppb, equivalent to pg/mg : picogram (pg) of pesticide per milligram (mg) of hair, calculated on the basis of a sample weight of 50 mg.

For information: 1 g = 1 000 mg and 1 mg = 1 000 000 000 pg
